LOWELL IN 1839.

During the past year, the city of Lowell has advanced with steady progress. Two new companies have been incorporated for manufacturing purposes. The "Massachusetts Cotton Mills," with a capital of \$1,200,000, was incorporated in February, 1839. Since which time, the corporation has purchased of the Proprietors of Locks and Canals on Merrimack river the land at the junction of the Merrimack and the Concord rivers, with four mill privileges. Two of their mills have been erected, several blocks of boarding-houses been put up, and some of them are already in occupation. The residue of the mills and boarding-houses will be erected in the present year, and two of the mills will be put into operation.

The other company, called the "Whitney Mills," was incorporated with a capital of \$100,000. This company manufactures milled blankets. They have organized, and gone into operation in the stone mill, in Belvidere. These blankets are spoken of in high terms of commendation.

In addition to these new corporations, there has been formed a benevolent association, which promises great good. It is called the "Lowell Hospital Association,"

and is sustained by all the principal corporations in the city. This association has purchased the mansion house of our late lamented mayor, and will soon carry into effect the benevolent objects for which the association was created.

During the last year, there have also been erected two large brick churches: one on Hurd street, by the First Methodist Episcopal Society, called "St. Paul's Church;" the other, on John street, by the Third Congregational Society, called "John street Church."

LOWELL INSTITUTION FOR SAVINGS.

(For list of officers, refer to list of Banks.)

The design of this institution is to afford, to those who are desirous of saving their money, but who have not acquired sufficient to purchase a share in the Banks or a sum in public stocks, the means of employing it to advantage, without running the risk of losing it, as they are too frequently exposed to do, by loaning it to

individuals, who either fail or defraud them. It is intended to encourage the industrious and prudent, and to induce those who have not hitherto been such, to lessen their unnecessary expenses, and to save and lay by something for a period of life, when they will be less able to earn a support. To promote these desirable purposes, the following rules, among others, have been adopted.

Deposites, or moneys put in, will be received as low as one dollar, and when any person's deposits amount to five dollars they will be put upon interest.

To save expense, the institution will be open only on Thursday and Saturday evenings, from 7 to 9 o'clock. All entries on Thursday evening, will bear date of the succeeding Saturday.

Twice every year, namely, on the first Saturday of May and November, a payment of interest, at the rate of two dollars on every hundred dollars, that may have been deposited two quarters, and one dollar for every such sum as may have been deposited one quarter, will be made, and so in proportion for smaller sums, which will make four dollars on a hundred dollars each year. And at the end of every five years, all the extra income, which has not before been paid and divided, will then be divided among those who have been depositors for at least one year, in proportion to the interest which may have accrued on their deposits during the preceding five years; and nothing will be deducted from this extra income, but the actual expenses of carrying on the business and taking care of the money.

Those who do not choose to take their interest from time to time, may be assured that it shall be added to their deposits, and put upon interest at the end of three months; thus compounding their interest twice a year.

Any part, not less than ten dollars at a time, if more than that sum is deposited, or the whole of any depositor's money may be drawn only by giving a week's

notice, as the Trustees could not lend it or invest it to advantage if liable to pay it without any notice.—Deposites will be entered in the books of the institution, and also in a book to be given to the depositor. This book will be the evidence of their property, and as valid as a note of hand. When money is drawn out, this book must be brought to the office to have the payment entered. Depositors may take out the money themselves, or in case of absence or sickness, it will be paid to their order, properly witnessed and accompanied by this book.

If persons die, who have money in the Savings Bank, the money will go to their heirs, or the persons to whom they may have given it by will with certainty. If less than fifty dollars, to be paid without the expense of administration. It cannot be placed where it will be more safe, as it respects the honor and fidelity of management. Persons who put in money, must sign the rules and agree to conform to them. This is necessary for the security of all parties. Money can be deposited by any person for the benefit of a minor or other person, and not subject to be withdrawn for a certain period of time.

The certain safety of the institution will make it particularly useful to persons, who are in possession of money received as wages, gifts or gratuities, for which they have no immediate use, and which they wish to lay by for a rainy day.

Widows and children may, also, thus be safely provided for. A young man intending to marry at a future day, and young women, who may expect to change their condition, can here securely lay up a sum against a time when they may want it more.

As it would be impracticable to compute the interest on numerous deposits, unless it is made to commence from a few fixed periods, the deposits made during any quarter the first day, will not be put upon interest until the first day of the succeeding quarter. The

quarters commence on the first Saturdays of February, May, August and November; and no interest will be allowed for a fractional part of a dollar, or on a larger sum than five hundred dollars to any one depositor.

The Trustees, having undertaken to conduct the Institution solely to promote the interest of the city, shall never receive any emoluments therefrom, but may allow a reasonable compensation to the Treasurer and such other officers as may be found necessary.

Payments shall be made in current Bank notes, or specie—the Treasurer receiving only such in deposits.

No loans shall ever be made to any officer of the Institution.

The Board of Investment shall direct the investing of the funds of the Institution at their discretion, either in the stock of the United States, or of this State, or in the capital stock of some of the Banks in the city of Boston, or in the Bank of the United States, or in either of the Banks in the County of Middlesex, or in loans to any of the Banks in the Counties of Suffolk, or Middlesex, or to any County, City or Town in this Commonwealth, or in private securities, *with either of the above mentioned stocks, or securities as collateral, and no other, at the rate of ninety cents in the dollar of their par value:*—Or in loans, on mortgage of real estate within this State: provided that the whole amount loaned on mortgage shall not at any time exceed a third part of the whole funds of the Institution at the time of making the loan, and that no loan shall be made for more than half the value of the estate pledged—and that no such loan shall be made for a longer period than two years.
